- › Blow Back Operating System
- › Barrel Available in 9" or 10.5"
- › A2 Birdcage Compensator
- › Removable Carrying Handle with Flat-Top Upper Receiver
- › 4-Position Adjustable MilSpec Buttstock
- › 32-Round Magazine
- › Operation and Field Maintenance Similar to that of the Colt M4 Family of Weapons

Special Mission Weapons

Close enemy confrontations demand lightweight, compact, highly concealable, select fire weapons like the Colt 9mm SMG. The SMG fires from a closed bolt, and is equipped with a collapsible buttstock; all making it well suited for the military and law enforcement communities. This straight-line construction, coupled with the low recoil of 9MM ammunition, provides highly accurate fire with less muzzle climb, especially in full automatic fire. Less recoil also facilitates ease of training and improves accuracy. Finally, operation and training for the Colt 9mm SMG is similar to that for the Colt M16 Rifle, M4 Carbine or Colt Commando® Carbine, simplifying user training substantially.
